

BLOTZ

10mm Middle East #1

B10-ME-001

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Remove the central wall and upper roof from the sprue.

Glue the roof to the wall as shown – note the position of the hatch (top right in pic).

Take the front and rear walls, plus the lower roof.

Glue these together as shown.

The two end walls.

Add them to the building.

Glue the base into position.

The completed building.
