

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Remove the front and rear walls of the building plus the two roof pieces from the sprue.

Glue the roof sections to the walls as shown – note the positions of the hatches on each level.

Take the side walls.

Glue these to the building as shown.

Glue the building to the base.

Add the two Stepped pieces

Add the outer wall.

The completed building.
