

BLOTZ

28mm Stairs #1

B28-SR-001

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Remove the left-hand supports and the steps from the sprue.

Glue the steps into the non-etched side of the supports.

Then take the right-hand support and attach that in position, gently easing each step into place.

Add the base.

Insert the lugs on the platform into the left hand support, then gently ease the other side down onto the pegs on the right hand support.

Glue the end support into position.

Add the top rail.

Then the handrails (rounded end at the bottom)
