

28mm Upright Piano and Chair

B28-AF-103

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

A full-colour copy of these instructions can be found on our website: www.blotz.co.uk

Each chair is formed from the pieces shown above. Apply a little glue to the underside of one short end of the seat. Stick this to the top of the bar on the chair back.

Apply glue to the underside of the other end of the seat and attach the front legs.

The piano is formed from the pieces shown above.

Start by attaching the keyboard to the front of the piano, then glue the ends in place.

Attach the base and top of the piano.

Finally attach the back.
