## 28mm Tables and Benches

### B28-AF-104

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Each table is formed from one table top and two sets of legs as shown above.

Turn the table top over and glue the legs to the underside using the pegs / lugs to position them.

Each bench has a seat and two sets of legs.

Glue the legs into position as shown.

The completed table and its benches.
