

28mm Spawning Pool

B28-JR-003

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Remove the shorter end and side walls from the sprue.

Glue these to the base with the etched detailing facing inwards.

Take remaining walls...

..and glue these into place with the etched detail facing outwards.

Attach the top plate.

The completed spawning pool.
