

# 28mm Short Stone Jetty (x2)

## B28-QS-006

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

A full-colour copy of these instructions can be found on our website: [www.blotz.co.uk](http://www.blotz.co.uk)

### Short Stone Jetty (B28-QS-006)

Remove the base piece and two short supports from the sprue.

Glue the short supports in position (as shown) on the underside of the base.

Take the two long sides from the sprue.

Glue into position as shown above.

Take the two end walls from the sprue.

Glue them into position.

Each of the legs is formed from three pieces, glued together as shown.

Before the glue has fully set on the legs, push/glue one onto a lug stuck out from the short supports (as shown above).
