

28mm Short Building - Stands

B28-SB-006

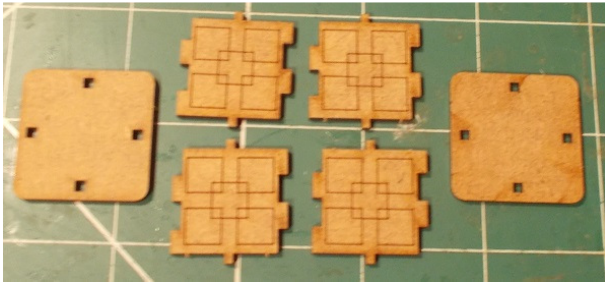

Please read these instructions fully before starting construction.

PVA or equivalent glue will be required to stick sections together.

Sand paper can be used to gently clean any joints.

A sharp modelling knife will be required to remove sections from the sprue. Please use knives with due care and remember to cut away from yourself at all times.

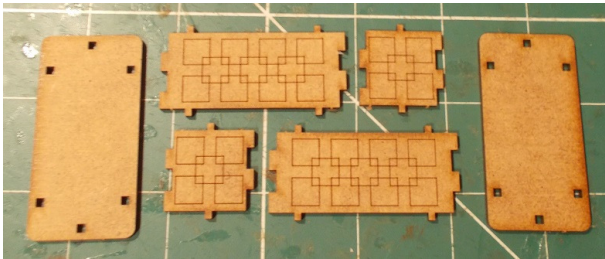

During the construction of this model, you may find it convenient to use pegs / elastic bands to hold pieces in place while you allow glue to dry.

Take the square base/lid and four short walls from the sprue.

Glue the wall sections to the base piece.

Take the rectangular base/lid from the sprue along with the rest of the walls.

Glue the walls to the base as shown.

Glue the lids onto each stand.

Examples of painted stands.
